

THERAPY START NOTIFICATION

Cascadia Mutual | Form CSM-NOT-1180 | rev 2026-01 | Policy CSM-SPX-062

SECTION A - PATIENT AND COVERAGE

PATIENT NAME Priya Raman		DATE OF BIRTH 1984-11-03	SEX Female
MEMBER ID CSM551903442	GROUP NUMBER GRP-40188	COVERAGE EFFECTIVE 2026-01-01	
PLAN Cascadia Mutual · Cascadia Select HMO		BENEFIT Medical · buy-and-bill	

SECTION B - PRESCRIBER

PRESCRIBER Sofia Marchetti, MD		NPI 1487720933
SPECIALTY Hematology	PRACTICE Cascade Hematology Associates	
PHONE (206) 555-0119	FAX (206) 555-0120	TAX ID 91-2233104

SECTION C - REQUESTED THERAPY

REQUESTED PRODUCT Ferexa (ferric carbolate) 750 mg/15 mL		J-CODE J1439
NDC 58291-0750-02	DOSE 750 mg	ROUTE Intravenous infusion
FREQUENCY Two doses separated by at least 7 days	QUANTITY 2 vials total	DAYS SUPPLY 14
DIAGNOSIS D50.9 · Iron deficiency anemia, unspecified	ICD-10 D50.9	REQUEST TYPE Initial · Standard
SITE OF CARE In-network hospital-affiliated infusion suite	REQUESTED START 2026-09-02	DURATION REQUESTED Single course

SECTION D - CLINICAL REVIEW QUESTIONS

Answer every question from the submitted documentation. For each answer, identify the document and page it is supported by.

#	QUESTION	ANSWER	SUPPORTING DOCUMENT / PAGE
1	What specialty drug is being requested?	Ferexa (ferric carbolate) 750 mg/15 mL	Enrollment p1
2	What is the total elemental iron dose requested?	1,500 mg across two doses	Enrollment p1
3	What is the requested site of care?	In-network hospital-affiliated infusion suite	Enrollment p1
4	Is the iron deficiency documented by laboratory results?	Yes — Hgb 9.1 g/dL, ferritin 8 ng/mL	Lab Report p1
5	Does this request require prior authorization?	No	Policy p1

SECTION E - ATTESTATION

I certify that the information provided is accurate and that the requested therapy is medically necessary.

SUBMITTER NAME A. Reyes, RN	TITLE Hub clinical reviewer	DATE 2026-08-26
SIGNATURE A. Reyes, RN	HUB CASE HUB-2042	TRACKING CSM-20260826-2042

This form is provided for demonstration purposes and is not the form of any real health plan.

PRESCRIBER ENROLLMENT / START FORM

Ferexa (ferric carbolate) 750 mg/15 mL · Intravenous iron replacement

SECTION 1 - PATIENT INFORMATION

PATIENT NAME Priya Raman	DATE OF BIRTH 1984-11-03	SEX Female
HUB PATIENT ID PT-4471118	PHONE (206) 555-0177	CONSENT ON FILE Yes · 2026-08-25
HOME ADDRESS 45 Fernwood Court, Bellevue, WA 98004		

SECTION 2 - INSURANCE

PAYER Cascadia Mutual	PLAN Cascadia Select HMO	
MEMBER ID CSM551903442	GROUP NUMBER GRP-40188	COVERAGE EFFECTIVE 2026-01-01
BENEFIT Medical · buy-and-bill	SECONDARY COVERAGE None reported	

SECTION 3 - PRESCRIBER

PRESCRIBER Sofia Marchetti, MD	NPI 1487720933	TAX ID 91-2233104
SPECIALTY Hematology	PRACTICE Cascade Hematology Associates	
PHONE (206) 555-0119	FAX (206) 555-0120	

SECTION 4 - PRESCRIPTION

PRODUCT Ferexa (ferric carbolate) 750 mg/15 mL		J-CODE J1439
NDC 58291-0750-02	STRENGTH 750 mg/15 mL single-dose vial	
DOSE 750 mg	ROUTE Intravenous infusion	FREQUENCY Two doses separated by at least 7 days
QUANTITY 2 vials total	DAYS SUPPLY 14	DURATION REQUESTED Single course
SITE OF CARE In-network hospital-affiliated infusion suite		REQUESTED START 2026-09-02
DIAGNOSIS D50.9 · Iron deficiency anemia, unspecified		REQUEST TYPE Initial · Standard

SECTION 5 - PRESCRIBER NOTES

Patient enrolled for intravenous iron replacement. Two 750 mg doses requested, separated by at least seven days, at Cascade Infusion Center, which is in the plan network. Please confirm coverage and file the therapy start notification. Oral iron previously not tolerated.

SECTION 6 - PRESCRIBER SIGNATURE

SIGNATURE Sofia Marchetti	TITLE MD	DATE SIGNED 2026-08-25
-------------------------------------	--------------------	----------------------------------

This document is synthetic and was produced for software demonstration purposes. It does not describe a real patient, prescriber, payer, or product.

Ordered by Sofia Marchetti, MD · Cascade Hematology Associates

Patient	Priya Raman · DOB 1984-11-03 · Female
Patient ID	PT-4471118
Collected	2026-08-19
Reported	2026-08-19

TEST	RESULT	REFERENCE RANGE	COLLECTED
Haemoglobin	9.1 g/dL	12.0 - 15.5 g/dL	2026-08-19
Haematocrit	28.4 %	34.9 - 44.5 %	2026-08-19
Mean corpuscular volume	72 fL	80 - 100 fL	2026-08-19
Ferritin	8 ng/mL	13 - 150 ng/mL	2026-08-19
Transferrin saturation	9 %	15 - 45 %	2026-08-19
Total iron binding capacity	466 mcg/dL	250 - 450 mcg/dL	2026-08-19
Serum iron	31 mcg/dL	50 - 170 mcg/dL	2026-08-19

Complete blood count and iron studies collected during evaluation for fatigue and exertional dyspnoea. Findings are consistent with iron deficiency anaemia. Oral ferrous sulfate 325 mg was tried for eleven weeks with persistent gastrointestinal intolerance and no improvement in haemoglobin.

This document is synthetic and was produced for software demonstration purposes. It does not describe a real patient, prescriber, payer, or product.

MEDICAL POLICY CSM-SPX-062

Cascadia Mutual | Intravenous Iron Replacement Products | Effective 2026-01-01

SCOPE

This policy establishes the medical necessity criteria applied by Cascadia Mutual to requests for intravenous iron replacement products for commercial plan members. It applies to requests submitted directly by a prescriber and to requests submitted by an authorised manufacturer hub agent on the prescriber's behalf.

DRUGS REQUIRING PRIOR AUTHORIZATION

Prior authorization is required for products billed under the following codes: J1439. J1439 corresponds to ferric carbolate, marketed as Ferexa, 750 mg/15 ml single-dose vial.

DRUGS NOT REQUIRING PRIOR AUTHORIZATION

Oral iron preparations and intravenous iron dosed at or below the open access threshold at an in-network site do not require prior authorization under this plan.

MEDICAL NECESSITY CRITERIA

Ferexa is considered medically necessary when all of the following criteria are met:

1. Intravenous iron replacement products listed on the plan's open-access medical benefit schedule do not require prior authorization when the cumulative elemental iron dose requested is 1,500 mg or less within any rolling twelve-month period.
2. Administration must occur at an in-network infusion site of care. Requests for administration in an out-of-network setting require prior authorization regardless of dose.
3. The plan requires a therapy start notification, filed by the prescriber or an authorized hub agent, within five business days of the first administration.

EXCEPTIONS

Requests exceeding the 1,500 mg rolling twelve-month threshold, or requests for administration at a site of care outside the plan network, fall outside open access and are reviewed under the plan's standard specialty drug prior authorization process.

DOCUMENTATION REQUIREMENTS

A therapy start notification must be accompanied by the signed prescriber enrollment or start form and a laboratory report documenting the iron deficiency, dated within ninety days of the request.

REVIEW TIMEFRAMES

Standard requests are adjudicated within five (5) business days of receipt of a complete submission. Expedited requests are adjudicated within seventy-two (72) hours. An incomplete submission is returned with a written statement of the missing element and the review clock restarts on receipt of the complete packet.

CODING

CODE	TYPE	DESCRIPTION
J1439	HCPCS	Ferric Carbolate, per billing unit
58291-0750-02	NDC	Ferexa 750 mg/15 mL single-dose vial
D50.9	ICD-10-CM	Iron deficiency anemia, unspecified
